What you will need:

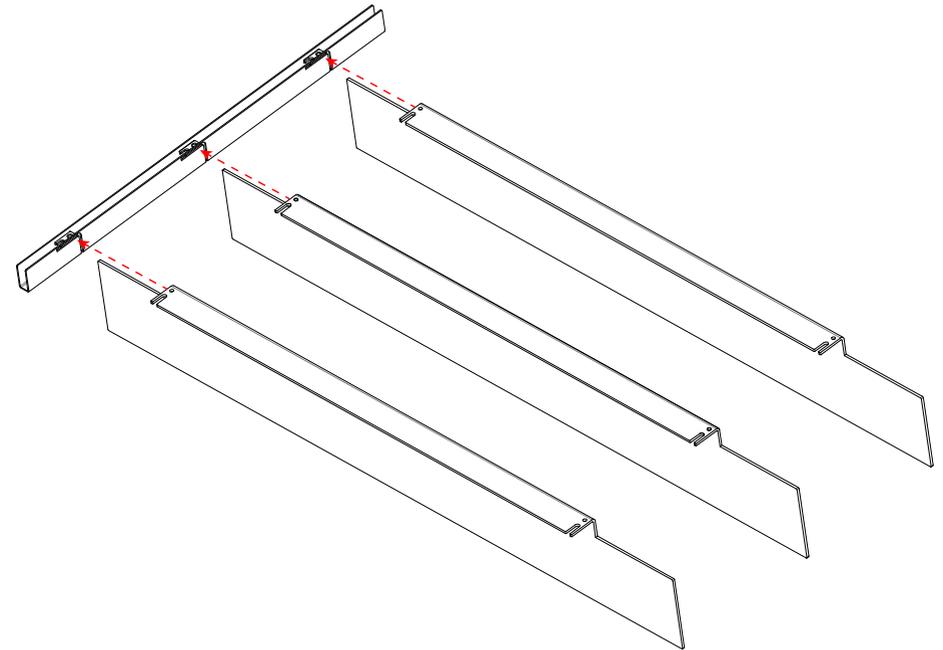

A phillips screw driver

1 With the back of the shelves facing up, place the slot of the vertical profile on the shelf. Then place the small black block inside the tube.

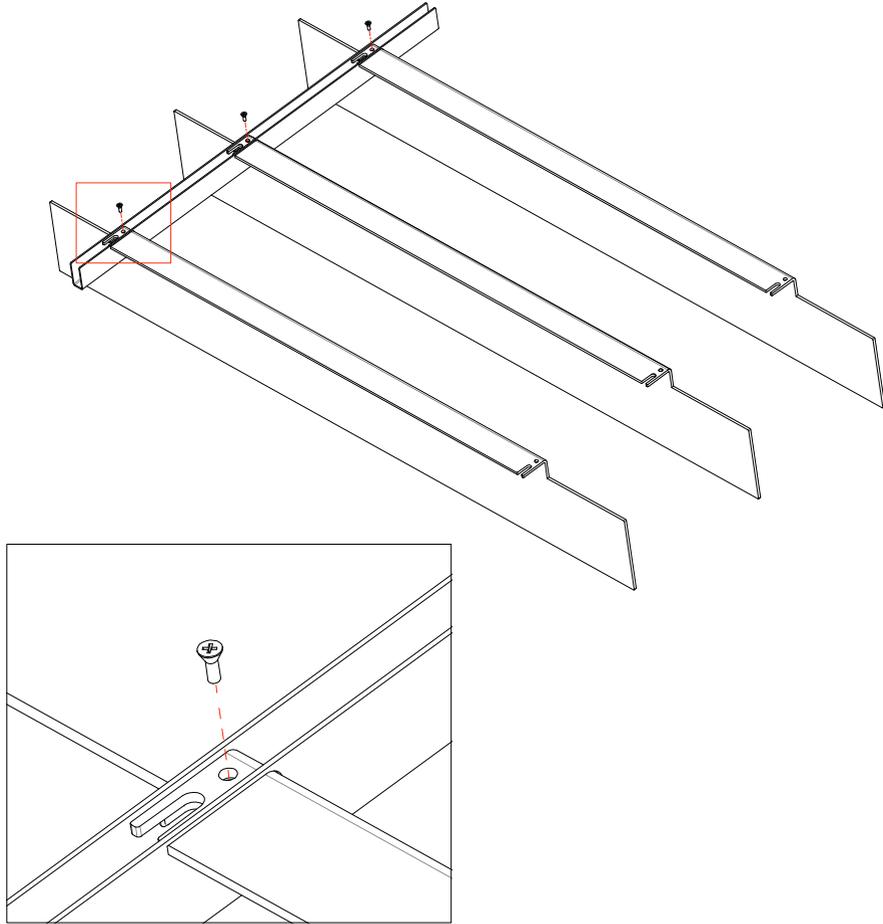

2 With the black blocks inside the vertical profile, make it slide so the side of the shelves fit inside the slot.

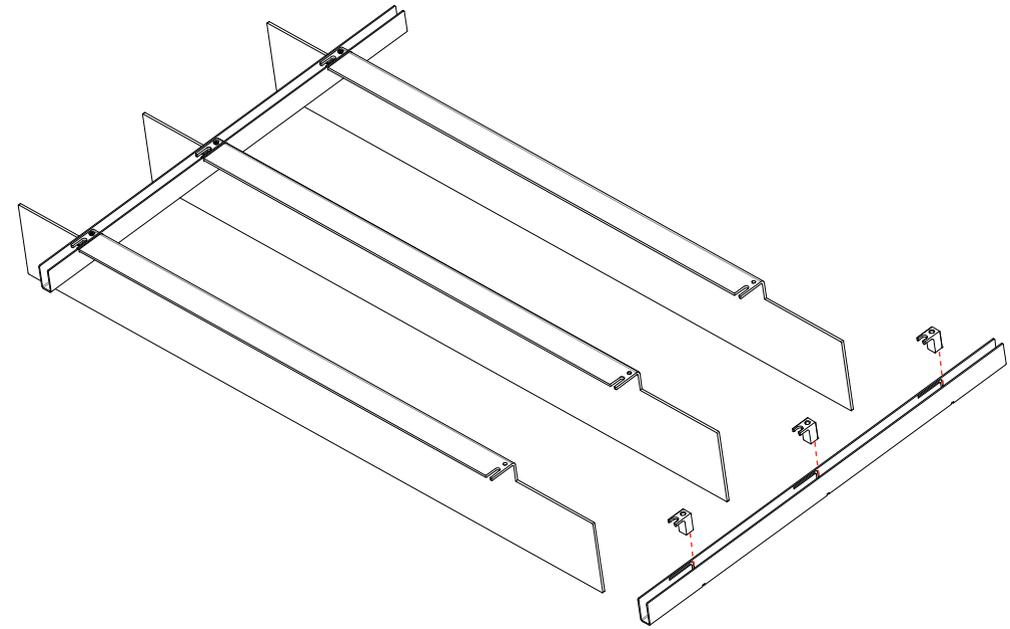

NOTE

Be aware that the two vertical profiles are symmetrical. They have a right and a left part.

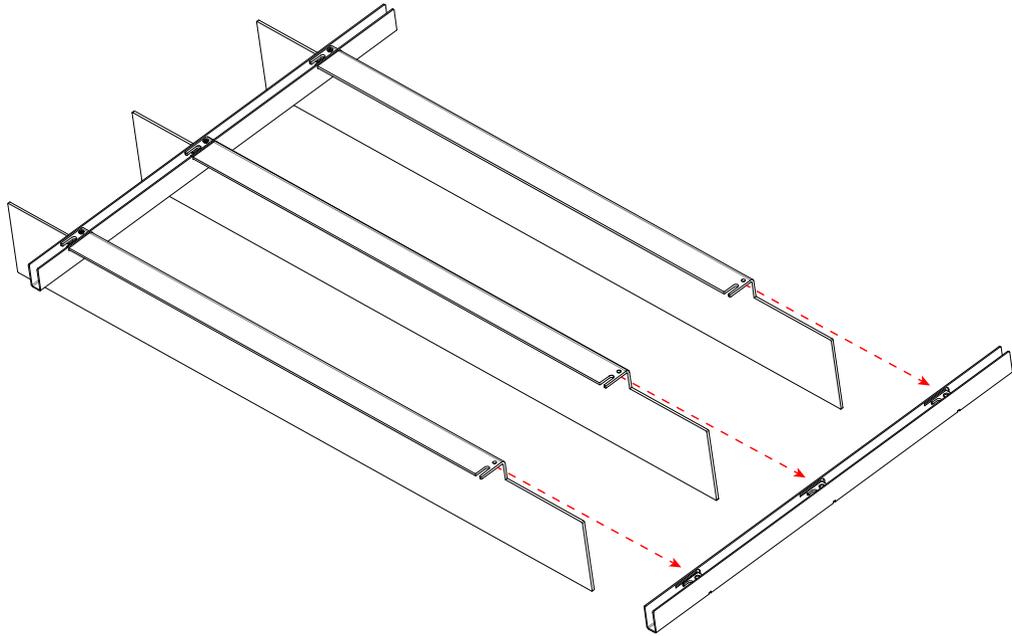

3 Fix the shelves to the vertical with a small screw.

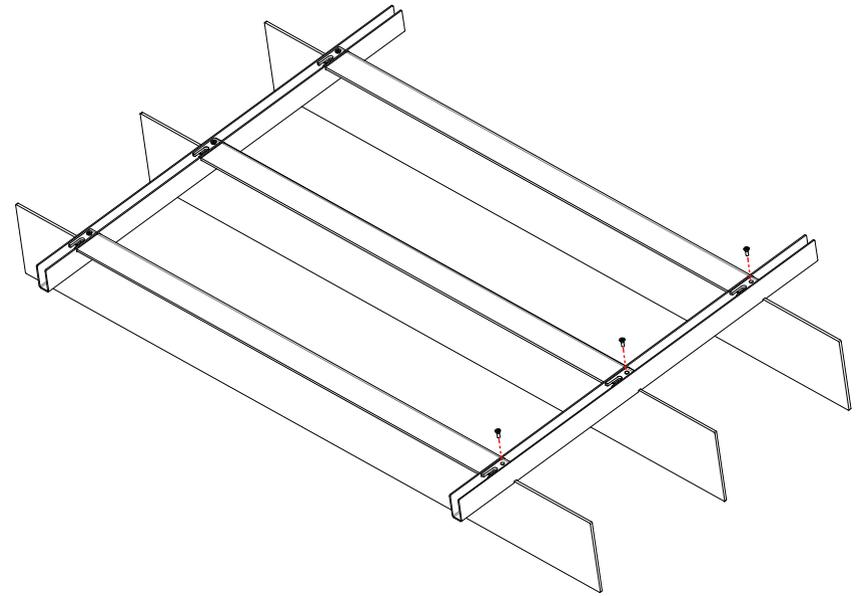

4 Repeat the previous three steps for the opposite side.

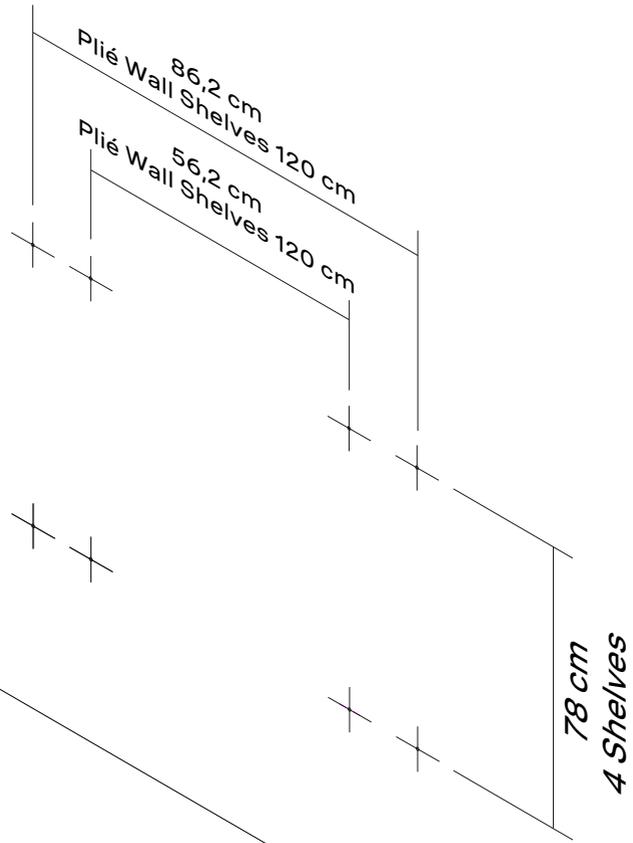

7 Slide the opposite vertical profile to make the shelves fit in the slot.

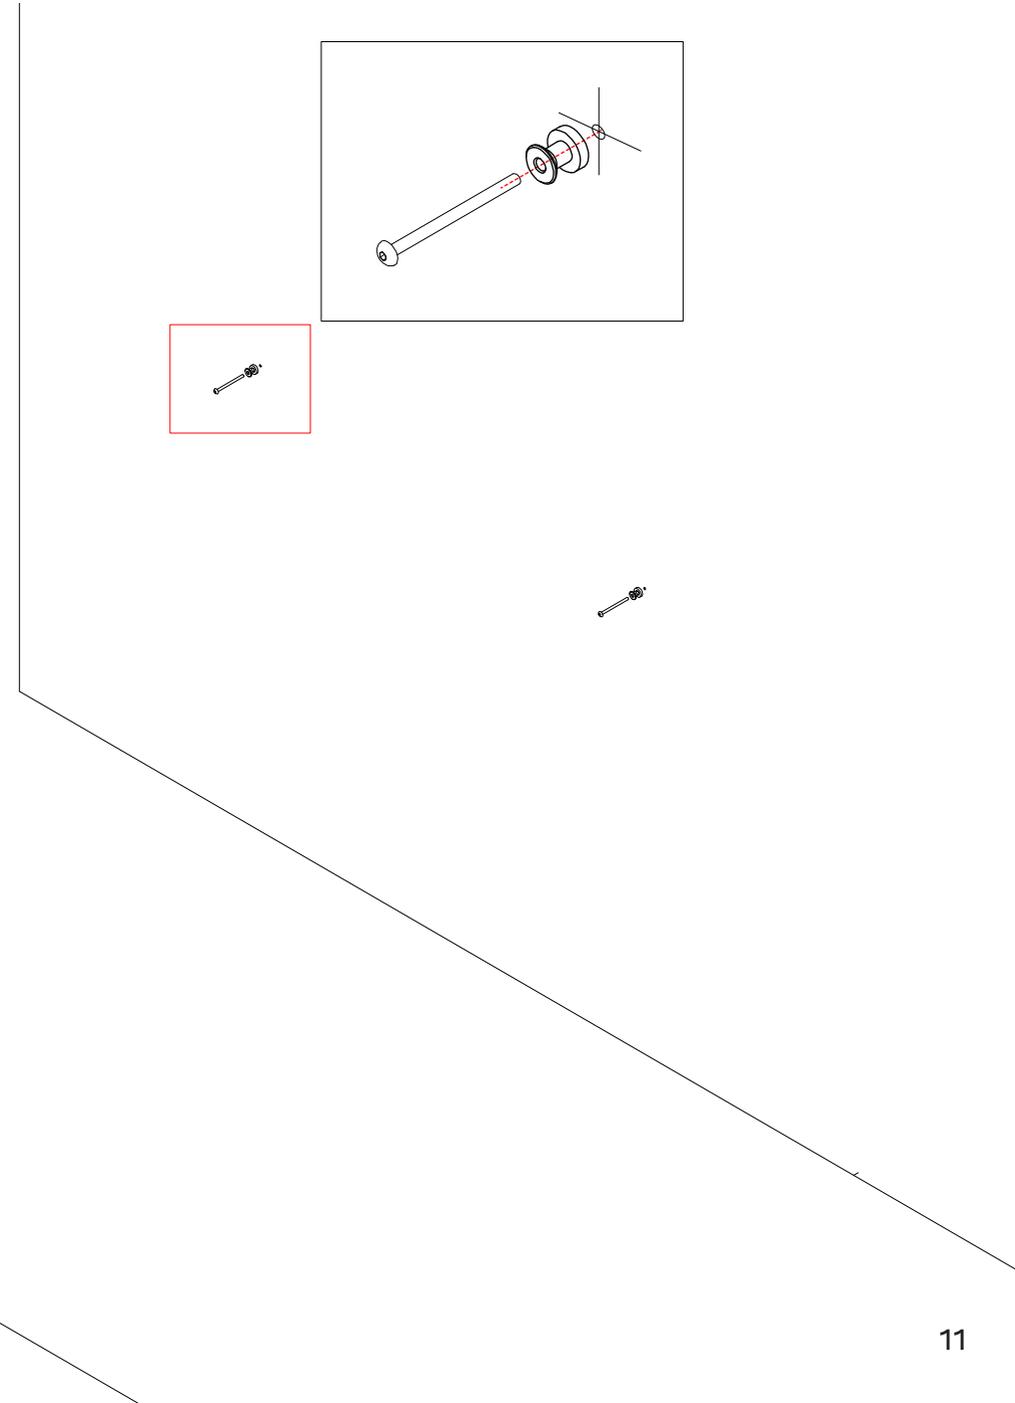

8 Fix the block with the screw.

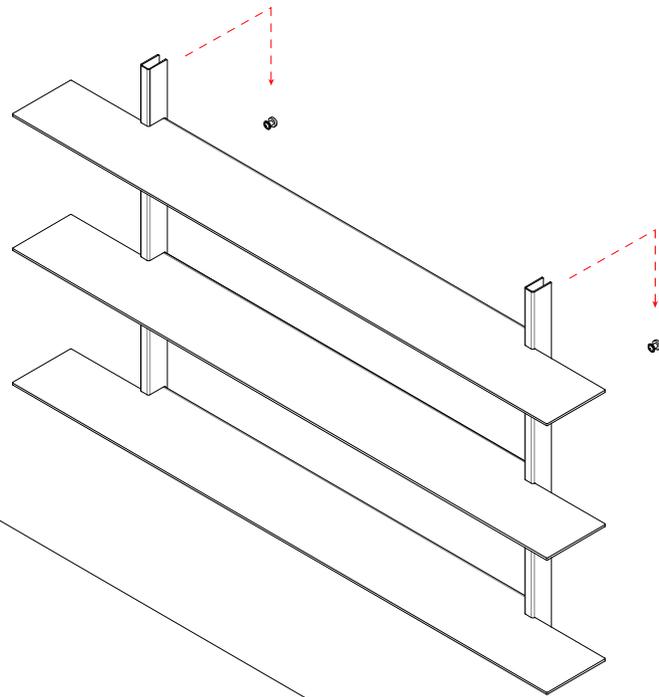

9 With the help of the printed holes placeholder make the markings on the wall to place the wall plugs,

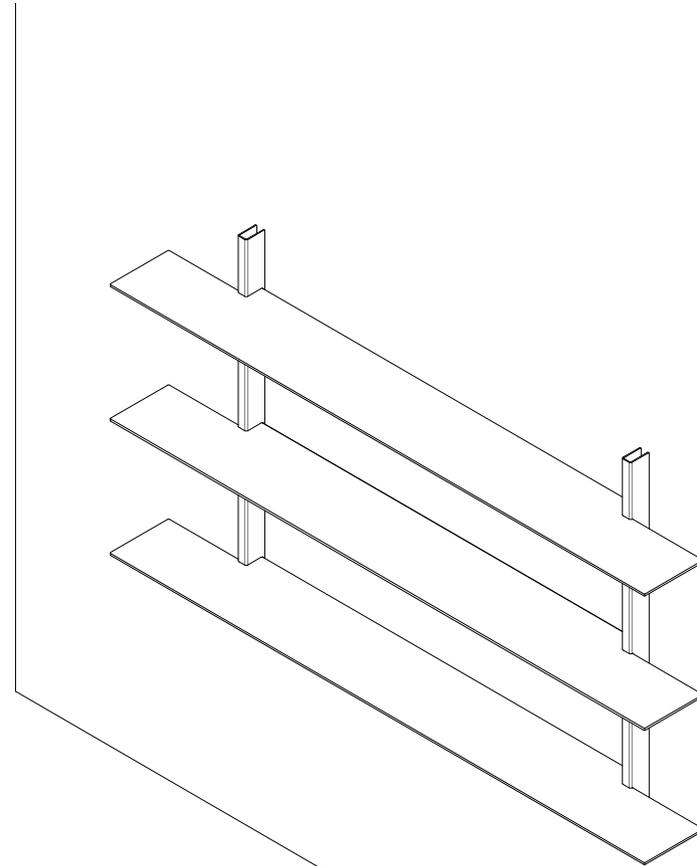

10 Fix the screw to the wall with the black revolved piece.

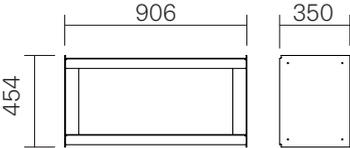

11 Place the Wall shelves against the wall and make them slide downwards until they slide in the wall screws.

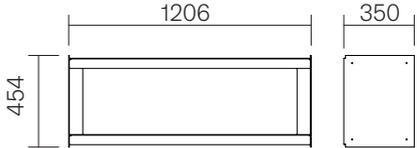

12 And that is it!

UTIL

Is a Lisbon-based brand that creates designer furniture. We are driven by a curiosity about people and how they live. Our goal is to develop furniture that blends in, rather than stands out, and is intentionally designed to be helpful and subtle. We believe that every piece of furniture is for life. For that reason, we make sure our products are designed for a home that grows with you. This is UTIL. Contemporary, functional, and understated designer furniture.

We are internationally designed and locally produced.

FROM INDUSTRIAL DESIGN

Is a collaboration between Cesare Bizzotto and Tobias Nitsche. The italo-german duo met during their masters degree in ECAL, Switzerland. Since then been developing industrial products in the fields of furniture and lighting. They are known for developing innovative and forward thinking solutions while always keeping an edge in their aesthetics.

They have designed the Plié Shelving System for UTIL.
